You are invited to join us for the first get-together of our 'Speaking in the Community' programme. This introductory evening is for speaker club members who we know have a heightened social conscience and think might be interested to hear about the opportunities to use their skills in charities, in education and in the wider community. It will be particularly valuable for those members who are also considering ways to encourage more members into speaker clubs. We aim to have a group of between 20 and 30 people.

The skills we have all gained through our clubs are needed in our own communities. Each of us can play a part in sharing these skills and making a difference to the lives of others. Hear from others who are already involved. We will also want to pick your brains as this will be our first pilot event!
